

# The Development and Application of HTS Conductors

**Friday, January 15, 2010**

**Institute of Physics, 76 Portland Place, London, UK**

A one-day seminar  
organised by the IOP Superconductivity Group in the UK,  
connecting Industry and Academia  
in the application of High Temperature Superconductivity

The seminar will address  
the current development status of devices using HTS conductors  
and the prospects for their future exploitation

*Sponsored by SuperPower, Inc. and Oxford Instruments NanoScience*

Invited speakers include:

*Prof. V. Selvamanickam, Dr. T. Arndt, Prof. A. Campbell,  
Prof. P. Tixador, Dr. J. Bock and Dr. C. Friend*

Additional Oral and Poster Contributions are invited  
There will be a £150 prize for the best student poster

**Online registration and submission of abstracts now open at  
[www.tinyurl.com/iop-hts-seminar](http://www.tinyurl.com/iop-hts-seminar)**

Places will be limited so book early – fees are £46 for IOP members  
(£29 for students) registering before December 14, 2009

Opportunity for company exhibits for a fee of £75  
(see webpage or email organisers for details)

Organising Committee: Z. Melhem, J. Durrell, C. Friend and T. Lehner
